AMENDMENT

Dear Sir:

In response to the Office Action mailed July 31, 2001, please enter this amendment and consider the following remarks.

IN THE CLAIMS

1. (Amended) A method of initializing a device on a network comprising:
- requesting configuration information from a remote device coupled to the network
- in response to connecting the device to the network;
- waiting a period of time for a response to the request for configuration
- information;
